

Figure 1. Location of faults evaluated in FER-139, showing significant data relating to recency of faulting.

◻ → Age of unit displaced by fault

◻ ← Age of unit concealing fault

△ Inferred age of fault-produced topographic feature

1 = Holocene

2 = Late Pleistocene

3 = Plio-Pleistocene

4 = Pliocene

5 = pre-Pliocene

Offshore faults from Jennings (1975, shown in yellow) and Field, et al (1980, shown in orange).
